

## Product groups of building production

10. Proportion of product groups or subgroups in the building production of the building industry	163
11. Building production of building industry classified by groups and subgroups of products and by counties	164/165
12. Building repairs	164
13. Agricultural capacities completed, classified by counties	165

## Dwellings

14. Dwellings completed and means spent for housing construction classified by counties	166
15. Index of building repairs of living houses (including modernization)	166
16. Modernization of dwellings classified by counties	167
17. Newly built dwellings classified by construction time groups and average construction time in new housing construction	167
18. Degree of living comfort in newly built dwellings	168
19. Proportion of dwelling size groups of floor space in relation to newly built dwellings	168
20. Stock of dwellings, living-rooms and living-space by counties	168
21. Stock of dwellings by the number of living-rooms and by counties	169
22. Stock of dwellings by the number of living-rooms and by living-space size groups	169
23. Character of equipment of the stock of dwellings by counties	170
24. Resident population in households by the character of equipment of dwellings and by counties	170

## IX. Crafts

## All crafts

1. Services rendered by the crafts classified by forms of enterprises ownership	172
2. Services rendered by the crafts classified by types of services and by counties	172

## Craftmen's production cooperatives

3. Production cooperatives, members and services classified by branches	173
4. Production cooperatives, members and services classified by counties	174
5. Production cooperatives, persons employed and services classified by types of services per branch and per county	175

## Private craftsmen

6. Enterprises, persons employed and services rendered by private craftsmen classified by types of services per branch and per county	176
---	-----

## X. Agriculture and Forestry

## Areas, enterprises, cooperatives

1. Total area classified by types of utilization and counties	178
2. Land under cultivation, classified by counties	178
3. Socialist agricultural enterprises by counties	179
4. Useful agricultural «area cultivated by socialist agricultural enterprises, by counties	179
5 a. Members of agricultural producers' cooperatives	180
5 b. Members of agricultural producers' cooperatives classified by counties	180
6a. Female members of agricultural producers' cooperatives	181
6b. Female members of agricultural producers* cooperatives classified by counties	181

## Persons employed, earned income

7. Persons employed classified by status in the enterprise and by counties	182
8. Constantly employed persons classified by counties	183
9. Average income earned per month in nationally-owned enterprises	184
10. Inter-cooperative establishments	184
11. Level of qualification of persons constantly employed in the socialist agriculture classified by counties	185

## Stock of machines

12. Stock of machines in the socialist agriculture classified by counties	186
13. Equipment and machinery of internal and dairy farming in the socialist agriculture	187

## Crop farming

14. New capacities for land improvements in the socialist agriculture classified by counties	187
15. Agrochemical centres classified by counties	188
16. Delivery of plant protectives, and chemical weed control	188
17. Delivery of mineral fertilizers classified by counties	189
18. Harvesting areas classified by crops	190/191
19. Net yields classified by crops	192/193
20. Yields per hectare classified by crops	194/195
21. Harvesting areas and net yields classified by crops and counties	196 — 198
22. Net yield of productive cultivated fruit classified by counties*	199
23. Yields of ornamental plants under glass and plastic	199

## Livestock, livestock farming

24. Livestock	200
25. Livestock classified by counties	201
26. Livestock in cattle units	201
27. Livestock density per 100 hectares of land under cultivation, classified by counties	202
28. Commercial slaughtering and private slaughtering classified by counties	202
29. Output of animal produce classified by counties	203
30. Average output of livestock farming classified by counties	203

## State availabilities

31. State availabilities of selected agricultural produce classified by counties	204/205
32. State availabilities of animal produce per hectare of land under cultivation, classified by counties	205

## Forestry

33. Afforestation and forest cultivation	206
34. Wood-cutting	206
35. Timber cutting classified by species of wood	207
36. Production of bark and resin	207
37. Forest fires	207
38. Shooting and stock of game	208

## Fur-bearing animals, fishing

39. Stock of fur-bearing animals	208
40. Fish catches from deep-sea, coastal and inland fishing	208

## XI. Transport, Post and Telecommunications

1. Length of transport routes	210
2. Public passenger transport system	210
