

SCHEDULE "D"

CHEMICALS ON WHICH APPLIED SCIENTIFIC RESEARCH IS PROHIBITED IN RESPECT TO METHODS OF MANUFACTURE, AND REQUIRES PRIOR PERMISSION IN RESPECT TO METHODS OF UTILIZATION

Nitrocellulose

Potential poison war >gases:

Chlorine

Phosgene

Hydrocyanic acid

Chlorinated ketones

Halogenated carboxylic acids and their esters

Cyanogen halides

Lachrymatory halogen derivatives of hydrocarbons.

Hydrogen peroxide having a concentration of 50% or less.

Liquid oxygen

Activated carbons

White phosphorus

Incendiary compositions, e. g. Thermites

Smoke-producing substances, e. g. titanium tetrachloride and silicon tetrachloride.
