Explanations

1. Staatsangehörigkeit: Citizens of Germany should answer "Deutschland". Those who are not citizens of Germany acquire German citizenship by naturalization only (routine procedure for naturalization), women by marriage with a citizen of Germany. Children of foreigners do not acquire German citizenship by reason of their birth within the country. Persons possessing another citizenship in addition to German citizenship should also* indicate this. Stateless persons, i. e., those having no citizenship of any country, should put "Staatenlos".

2. These questions shall be answered by those persons whose national origin from which they stem differs from their citizenship (Staatsangehörigkeit) (question 7).

3. Only to be filled out by persons who were born before 1 January, 1932.
